Dear Talentify

I'm writing to show my interest in the position of a front-end web developer. You'll find that I have more than 4 years of practical expertise effectively coding websites and applications with the latest ReactJs, JavaScript, CSS, and HTML, Django, and Django rest framework.

My true love is creating cutting-edge, simple-to-use, user-friendly websites and applications, therefore I'm sure I'd make a great addition to your team. I actively look for new technologies, in addition to my existing knowledge, and keep up with market developments. Due to this, I have been able to keep ahead of the curve and provide all of my employers, including those I have worked for on a project basis, with great work.

I've included a copy of my resume with a description of my experience, links to websites and programs I've had the pleasure of working on, and more.

I can be reached anytime at adesiyantope2014@gmail.com or on WhatsApp +2347038347584

I appreciate your thoughts and time. I'm looking forward to discussing this opportunity with you.

Best regards

Adesiyan Temitope Timothy
